

HAPWOOD.  
BY HOWELL

NO CUPPING. NO GAPPING. NO PROBLEM.

WARRANTY

We offer the industry's only warranty against seasonal movement.

MADE IN USA

Our flooring is made in the USA with materials harvested in the USA.

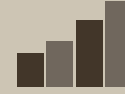

REPUTATION

Less than 1 claim per million square feet over the last 25 years.

UNIQUE

Our unique 5 step manufacturing process is what sets us apart.

EXPERIENCE

We are the oldest continuous site-finished engineered flooring manufacturer.

ENVIRONMENT

We use fewer trees per floor from sustainable, renewable resources.

WHY CHOOSE HAPWOOD®?

# REPUTATION

Quality is important when selecting your floor of choice and even more so after installation. And that's what Hapwood® by Howell brings to the table: averaging less than one claim per million square feet over the last 25 years.

*"Because of nail down solids inherent seasonal movement, we have almost exclusively moved our site finish business to Hapwood® by Howell. With over 800,000 ft installed, we are proud to say Hapwood® is virtually trouble free and we have had ZERO issues with cupping or gapping."*

*BOB BURTON - President Southwestern Interiors*

That's Howell's "One in a Million" quality commitment.

Hapwood® by Howell - Ask for it by name.

HOWELL
